

Check out the following resources as you consider how you might flip your classroom.

Ways to Flip Your Classroom

- Use [Panopto](#) recordings (embed questions into the video for added engagement)
- Use [student-paced Nearpod](#) lessons (add audio to each slide) – work through an [example](#)
- Use [LCMS+](#) to post content, readings, videos, web links, discussions, quizzes, etc.
- Articulate 360 – Work with an Instructional Designer to develop online learning modules for your content! Check out [this example](#).

Flipping without Technology

- You don't have to use videos to flip your classroom, read [this blog](#) to learn more!
